

**APPLE PLUS SCHOOL**

芝泉语言艺术学校

**Parent Feedback Form**

To whom it may concern,

my child started with Apple Plus School when he was about 5 years old. He has been enriched tremendously through abacus class. The teachers here are friendly, warm, and yet firm with the students. He enjoys himself here and his experience with Apple Plus School has helped him build up a strong foundation in mathematics. Hence, he finds studying math in school a breeze and his teachers are also very satisfied and pleased with his progress and results. Thanks to the method of unique teaching technique at Apple Plus School and also to the delication of the teachers in the Centre.

Yours sincerely,  
Mrs Pang JK,  
mother of Pang Er Kang
